

# Ceresota Flour

Ceresota Bread makes growing children strong.

## KAISER PRAISES OUR ART.

Official Notice Is Sent to Ambassador Hill.

Berlin, March 25.—Emperor William made a prolonged visit to the American art exhibition at the Royal academy yesterday. He examined closely all of the pictures and expressed himself as much pleased with them, in particular admiring the landscapes. He heartily congratulated Hugo Reisinger, who arranged the exhibit, and President Arthur Kampf, of the Royal academy of Arts, who accompanied him through the galleries. Later Emperor William sent to Ambassador Hill this telegram:

"I have just returned from the American art exhibit and wish to express to you my pleasure in having seen the works of the excellent artists."

Mr. Hill in reply addressed Count Eulenberg, lord chamberlain, as follows:

"Please express to his majesty my most grateful acknowledgments and thanks for his telegram so kindly appreciative of our American artists."

## NEW CORPORATION.

Will Take Over China, Webster and Pembroke Mills at Suncook.

Boston, March 25.—Two large cotton mills were incorporated here yesterday. The Suncook mills, with a capital of \$800,000, will take over the New Hampshire corporation, which owns the China, Webster and Pembroke print cloth mills at Suncook, N. H. The New Manufacturing company of New Bedford, has been incorporated with \$900,000 capital.

## TAKES CARNEGIE'S \$750,000.

Detroit Accepts Offer of Libraries After Nine Years' Delay.

Detroit, March 25.—The common council of Detroit ended a nine years' controversy, by voting to accept Andrew Carnegie's offer of \$750,000 for a new central library building and branches. In 1901 the offer was accepted by popular vote, but twice since then it has been voted down.

## TARIFF WILL NOT DOWN

The Senate Expects Another Outbreak

## POWERS FOR TARIFF BOARD

Talk of Reciprocity Treaty with Canada—This Follows Ambassador Bryce's Call on President.

Washington, March 25.—Tariff discussion will break loose again in the Senate soon, owing to the determination of the insurgents, who voted against the tariff bill, to try to make the tariff board a real factor in the study of tariff questions. When the item establishing the salaries of the board is reached in the legislative appropriation bill, reported Wednesday, Senator Beveridge of Indiana will move an amendment greatly broadening the powers of the tariff board and this will be vigorously supported by Senators Dilliver and Cummins of Iowa and other insurgents. They are convinced that the protective duties be analyzed by experts and the country through the tariff board, be informed what industries apparently need high protection and what do not. The advocates of the Beveridge plan believe that an impartial statement of facts with reference to the need of protection, as opposed to the demand for it by its chief beneficiaries, would result in a public clamor for certain reductions, which Congress would not dare ignore. In the exceedingly sensitive condition of many Republican statesmen, just preceding a congressional election, the insurgents believe their plan stands a much better chance of adoption than ever before.

The call of James Bryce, the British ambassador, upon President Taft yesterday morning, has given currency to a suggestion, which may be taken for what it is worth, that the president would welcome the possibility of making a real reciprocity treaty with Canada. The Senate always has stood like a rock against treaties of this character, but it abandoned precedent in a most unpopular direction by forcing a retaliatory provision into the Payne tariff when, as far as Congress is concerned, genuine reciprocity of some kind is the only device that will permanently improve the trade relations of the two countries.

Yesterday the outlook for an agreement with Canada that will avert a tariff war is rather cheerful than otherwise, but both sides are convinced that the condition created by such an agreement can be only tentative, and that sooner or later the Canadian question will again become acute. The escape from a disastrous trade war is proving too narrow for either country to feel comfortable, if it is successfully made.

## WOMEN OF MIDDLE AGE

## Need Lydia E. Pinkham's Vegetable Compound

Brookfield, Mo.—"Two years ago I was unable to do any kind of work and only weighed 118 pounds. My trouble dates back to the time that women may expect nature to bring on them the Change of Life. I got a bottle of Lydia E. Pinkham's Vegetable Compound and it made me feel much better, and I have continued its use. I am very grateful to you for the good health I now enjoy."

—Mrs. SARAH LOUGHRAN, 414 S. Livingston Street, Brookfield, Mo.

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease and pain.

Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

For 30 years it has been curing women from the worst forms of female ailments—inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, and nervous prostration.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

## MAY ANNOUNCE TRADE TREATY WITH CANADA

Arrangements Semi-officially Declared as Good as Completed—New England Senators Believe Report.

Washington, March 25.—Semi-official statement is made that arrangements are as good as completed for a settlement of the tariff difficulty with Canada. No specific details are given, it being understood that the negotiations are not yet at the stage where the president is willing to make them public.

This is taken as authoritative by the New England senators, who have been following the matter with evident anxiety in recent days. Senator Crane of Massachusetts has been at the White House, and at the state department, where he is understood to have sought information as to the prospects of averting a tariff war. It is still a week before the maximum tariff would go into effect, unless there are arrangements to eliminate undue discriminations. It is believed that the president will have some announcement to make within three or four days.

## Catarrh

Quickly Cured by a Pleasant Germ-killing Antiseptic.

This Little Hyomei (pronounced High-ome) Inhaler is made of hard rubber and can easily be carried in pocket or purse. It will last a lifetime.

Into this inhaler you pour a few drops of medicinal Hyomei.

This is absorbed by the antiseptic gauze within, and now you are ready to breathe it in over the germ-infested membrane, where it will speedily begin its work of killing catarrh germs. Hyomei is made of Australian eucalyptol, combined with other antiseptics, and is very pleasant to breathe.

It is guaranteed to cure catarrh, bronchitis, sore throat, croup, coughs and colds, or money back. It cleans out a stuffed-up head in two minutes.

Sold by druggists everywhere and by the Red Cross Pharmacy. Complete outfit, including inhaler and one bottle of Hyomei, 50c. And remember that extra bottles if afterward needed cost only 50c.

## CAR MEN MUST FIGHT ALONE

General Strike Breaking Up in Philadelphia

## A STATE WIDE WALK-OUT

Only a Remote Possibility—Company Continues to Increase Its Service. Agreement Reached by Western Railroads and Firemen.

Philadelphia, March 25.—The disintegration of the general sympathetic strike called to aid the trolley men of the Philadelphia Rapid Transit company continued yesterday. Hundreds of mill hands employed in the textile industries returned to work, and building operations which were tied up by the general walk-out were resumed in many parts of the city. Workmen in other industries are also slowly going back to their places. The one conspicuous exception is the Amalgamated Society of Carpenters and Joiners, which is still holding its men out and expects to keep them out until the car strike is ended. The members of the Associated Carpenters of Philadelphia and vicinity, a rival carpenters organization, have returned to work, having made a new agreement with their employers, which is to the advantage of both sides.

With the state-wide strike only a remote possibility, and the general sympathy strike in this city breaking up, the striking motormen and conductors are standing almost alone, but they have resolved to continue their fight until the traction company comes to terms. The carmen expect to receive financial aid from all union men who have returned to work, and if these expectations are realized they hope to keep up the strike almost indefinitely. The traction company continues to increase its car service. All its lines are now in operation, but the service is limited in some sections.

While returning from a riot call in the northeastern section of the city yesterday, a patrol wagon was badly damaged by dynamite, which exploded under the vehicle. Six policemen, the driver and a sergeant were thrown to the street and were badly cut and bruised. One of the horses was out about the legs. It is believed the dynamite was placed on the track by strike sympathizers for the purpose of damaging a car and that the patrol wagon figured in the explosion accidentally. A man who was detected placing a stocking containing two sticks of dynamite on a car track was yesterday held in heavy bail for trial.

It was announced yesterday that a general meeting of the union men will be held next Sunday to consider the advisability of calling off the general strike.

## MALIN STILL IN FRANKLIN.

Union Chief Refuses Request of City Council.

Franklin, N. H., March 25.—Interesting developments in the situation among the paper-makers in the mills of the International Paper company here were expected yesterday and action that would lead to a strike is not improbable. A meeting of the night shift of the paper workers employed in the mills was called for yesterday morning and following this meeting, it was thought the announcement of the attitude of the union men would be made. Although no statement was given out as to what transpired at the meeting of the union paperworkers held last night, at which President John H. Malin, of the International Sulphite & Paper Mills Workers' union, who is here following his "deportation" out of Rumford Falls, Me. on Tuesday, spoke. It was said that the men expressed displeasure at the treatment accorded Mr. Malin by the city council Wednesday. Mr. Malin was requested to leave Franklin, following a special meeting of the council, but he refused to do so on the ground that he was conducting himself as a law-abiding citizen. No further action was taken by the council. Mr. Malin says he intends to remain here for a few days.

Between sixty and seventy men of the night shift attended a meeting yesterday forenoon, at which they were addressed by President Malin. After the meeting Mr. Malin stated that the sentiment expressed by the men seemed to indicate that Wednesday's action of the city council would result in a strike. All the employees will attend a mass meeting soon, at which time it is expected a vote will be taken on the proposition to strike.

## SEVEN MILLION SPINDLES.

Likely to Be Stopped within the Next Four Months.

Boston, March 25.—Probably seven million spindles in the United States will be stopped within the next four months, according to estimates made by cotton-mill authorities in this city, who express the opinion that a curtailment of production amounting to 25 per cent. cannot be avoided unless there is a sharp drop in the price of cotton.

It is said that owing to the curtailment program instituted among New England and southern cotton mills last fall, for the purpose of combatting the high prices then prevailing for cotton, conditions among mills to-day are worse than at any period since the panic of 1907-1908.

## Mr. Foster Appointed.

Washington, March 25.—Speaker Cannon yesterday announced the appointment of Representative Foster, Republican of Vermont, as chairman of the committee on foreign affairs, to succeed the late Representative Perkins of New York.

The chairmanship of the committee on expenditures, in the department of commerce and labor, made vacant by the promotion of Mr. Foster, was given to Mr. Gardner of Michigan, a staunch regular Republican. Both Mr. Foster and Mr. Gardner were entitled to the chairmanships by reason of seniority. Mr. Bennett of New York was appointed a member of the committee on foreign affairs to fill the vacancy created by the death of Mr. Lovering of Massachusetts.

## Do not use Soap, Naphtha, Borax, Soda, Ammonia or Kerosene with GOLD DUST

GOLD DUST has all desirable cleansing qualities in perfectly harmless and lasting form.

The GOLD DUST Twins need no outside help. No matter what you wish to clean—dishes, clothes, pots and pans, floors and woodwork, refrigerator, bath room or what not, GOLD DUST alone will do all the work—and do it better than anything else.

More than that, GOLD DUST will do all the hard part of the work without your help, saving your strength and temper.

GOLD DUST is a good, honest, vegetable oil soap in powdered form—scientifically combined with purifying ingredients of magic power.

Made by THE N. K. FAIRBANK COMPANY Makers of FAIRY SOAP, the oval cake.

## FAVORABLY REPORTED.

Republican Committee Members Approve Administration Railroad Bill.

Washington, March 25.—The administration railroad bill, introduced by Representative Townsend of Michigan, and largely amended in committee, was reported favorably by the house committee on interstate commerce yesterday.

The vote on the bill was on party lines. The Republicans voted for it unanimously. Four Democrats voted against it and two Democrats voted present. There will be a minority report.

## Anty Drudge Advises the Fireman.

Fireman—"Morning, Anty Drudge! You had better go over to Mrs. Sims; she's terribly burned."

Anty Drudge—"How did it happen?"

Fireman—"Over-heated stove. Trying to get the fire hot enough to boil her clothes. My wife was badly burned last week doing the same thing."

Anty Drudge—"Yes, I'll go right over. But look here, young man! Get your wife Fels-Naptha. Then she won't have to boil the clothes. Just use lukewarm or cool water; let the clothes soak for half an hour; that's all there is to it."

## Friendship begins with acquaintance.

All Fels-Naptha wants is an introduction and it will become your boon companion in laundry and kitchen.

We are advertising to get Fels-Naptha that introduction into new homes.

Then we depend on the soap itself to keep it there.

If Fels-Naptha wouldn't do what we claim; if it wouldn't wash clothes quicker and better in cool or lukewarm water without hard labor or boiling; if it wouldn't save time, work, fuel and health—would over a million women use it every washday?

Not much.

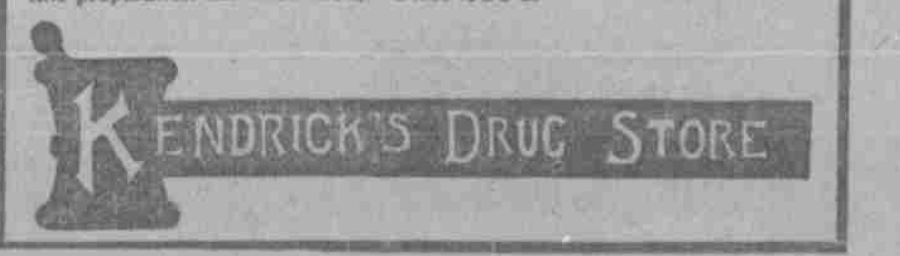

But Fels-Naptha will do these things and more; has done them and is doing them for more and more progressive women every year.

Follow the easy directions on the back of the red and green wrapper.

## Bed Bugs Routed

If you discover or suspect their presence on your premises, don't fail to use OUR BED BUG KILLER at once.

Now is the time to use it before the bugs multiply and become a greater nuisance. These troublesome pests cannot possibly exist where this preparation has been used. Price 25c at

## People Will Talk You Know

And that's the reason why Dr. Pierce's Family Medicines are advertised so little now-a-days. They have made hundreds of thousands of cures in the past 40 years, and some of the grateful people whom they have restored to health are to be found almost everywhere. There's scarcely a hamlet that don't contain some. Look them up. Interview them. They are living, walking, active advertisements.

## For Dr. Pierce's Family Medicines.

You can believe your neighbors. Therefore ask them. What cured them will very likely cure you, if similarly afflicted—only give them a good, fair trial.

It's a good, sound, common sense policy to use medicines only of KNOWN COMPOSITION, and which contain neither alcohol nor habit-forming drugs. The most intelligent people, and many of the most successful, conscientious physicians, follow this judicious course of action. The leading medical authorities, of all schools of medicine, endorse the ingredients composing Dr. Pierce's medicines. These are plainly printed on wrappers and attested under oath. There's no secrecy; an open publicity, square-deal policy is followed by the makers.

We have a profound desire to avoid all offense to the most delicate sensitiveness of modest women, for whom we entertain the most sincere respect and admiration. We shall not, therefore, particularize here concerning the symptoms and peculiar ailments incident to the sex for which Dr. Pierce's Favorite Prescription has for more than 40 years proven such a boon. We cannot, however, do a better service to the afflicted of the gentler sex than to refer them to Dr. Pierce's Common Sense Medical Adviser, a great family doctor book of 1000 pages, bound in cloth and green away gratis, or sent, post-paid, on receipt of 31 one-cent stamps—to cover cost of mailing only, or 21 cents for paper covered book. All the delicate ailments and matters about which every woman, whether young or old, single or married, should know, but which their sense of delicacy makes them hesitate to ask even the family physician about, are made plain in this great book. Write for it. Address: WORLD'S DISPENSARY MEDICAL ASSOCIATION, R. V. Pierce, M. D., Pres., 663 Main Street, Buffalo, N. Y.

## INVALIDS' HOTEL and SURGICAL INSTITUTE, BUFFALO, N. Y.

A model Sanitarium with every equipment and appliance and a complete staff of experienced and skilled Specialists for the treatment of the most difficult cases of chronic ailments whether requiring Medical or Surgical treatment for their cure. Send two stamps to above address for THE INVALIDS' GUIDE BOOK.
